

Task 3A

DA-KHB-III-09-T3a

09 ~~XXXXXXXXXXXX~~

The video I watched was called Collision. In this video there was a lot of partner work and lots of movement in general. The scenery worked perfect with the dance. Also the dancers had an attitude that made a big difference. The next video I watched was called before I die. This piece was more grounded and simple. There was still lots of movement and everyone worked well as a team. It was very different from the first video I watched.
