

Task 3c
~~07~~ 07

DA-KHB-III-07-T3c

After watching our dance, we realized that the movement ^{we} do not in unison helps to bring out the time we are in unison. I liked when two of us are doing one movement phrase and the others are doing the other movement. It is like we are help each other.

We realized that our dance was a little short. To fix this we added a walking pattern, where everyone is doing a different pattern. We also add in the metronome to help us keep time as we practice our dance.
