Initials BA

Task 4

Please list 3 personal goals that you would feel could help you in a performance setting:

1. Confidence
2. Being able to improv
3. Knowing the choreography well

What strategies could you employ to achieve these goals?

Being at class and practicing on my own

Please describe any personal or group successes you enjoyed during the implementation of this project:

We were able to work together to combine separate movements into one piece.

Do you feel that you were able to demonstrate leadership throughout the choreographic process? Is there any way that you could have done this more?

Yes I was able to incorporate my own individual movement and had to teach it to others.

What practices do you feel helped you to be successful in performance?

~~The 2 performances~~ In dance class we would have "olympics" where you perform with only 2 others in front of your classmates this helped me to become comfortable and confident.

Would you do anything differently to enhance future performances?

I will go full out and show confidence
